## **WRAP: Your guide to environmental management systems**

An Environmental Management System (EMS) is a structured framework for managing an organisation's significant environmental impacts. The latter vary between organisations, but typically will include waste, emissions, energy use, transport and consumption of materials. Climate change factors are increasingly prominent as are legacy issues such as contaminated land. Wider factors can also be ...

## **ENVIRONMENTAL MANAGEMENT SYSTEMS (EMS)**

ISO 14001:2015 specifies the requirements for an environmental management system that an organization can use to enhance its environmental performance. ISO 14001:2015 is intended for use by an organization seeking to manage its environmental responsibilities in a systematic manner that contributes to the environmental pillar of sustainability.
