## **female development in the pdf**

The discussion of women in development requires a review of the discourse on development. A variety of approaches to development have emerged over the several decades of development practice. A growing body of critical literature has looked at the ideology and paradigm of development. The term development evokes a positive image, as something that is desirable. Often development has not been ...

development of women's "eggs" are arrested during fetal development. This means she is born with a predetermined number of oocytes and cannot produce new ones. At about 5 months gestation, the ovaries contain approximately six to seven million oogonia, which initiate meiosis. The oogonia produce primary oocytes that are arrested in prophase I of meiosis from the time of birth until puberty ...
