

forces of change a pdf

Internal Forces of Organizational Change. Systemic Forces: An organization is made up of a system and several subsystems which are interconnected, just like the way in which a human system functions. The subsystems of an organization are in direct interaction and influence the organizational behaviour as well. A change in any subsystem, result in a change in the existing organizational processes and the complete alignment as well as the relationship.

Determining Forces of Organizational Change

This article presents a description of the Planned vs. Unplanned Changes and the internal as well as external factors as the primary forces dictate organizational change. It explains the taxonomy that results as a consequence of the combination of these two dimensions in the form of Planned Internal Change, Unplanned Internal Change, Planned ...
